Chairs Project

If you took your chair home see if you can finish it.

Paint it first. Think about the colour for your character

then add cushions or accessories. You may need PVA glue or glue gun for this.

If you do not have your chair from school, see if you can make another card chair at home. Or maybe if you are finished and you would like to make another... Here are some videos for you to watch and copy or use for inspiration and ideas In paper?
