

## **Global Studies - Topics for Revision**

Location and Characteristics of Global Climate Zones:  
Arid/Desert, Polar, Temperate, Tropical, Mediterranean

Interpreting climate graphs

Population distribution and density

The causes and consequences of the Industrial Revolution in Britain

Analysis of Historical Sources:  
Understanding and extracting information  
Comparing sources  
Evaluate reliability and bias of sources

Levels of development of countries:  
MEDCs, LEDCs, Newly Industrialised Countries (be able to locate on world map)

Indicators of development (be able to define and explain):  
GDP, Life Expectancy, Birth Rate, Infant Mortality Rate, Literacy Rate, Number of  
People per Doctor

Religious approaches to the environment: Christianity, Islam, Hinduism

Climate Change

Ethics: Different perspectives on Climate Change

Push and pull factors of migration

Migration in History:  
The Mayflower  
Transportation of Convicts to Australia

History on the Thames: The Great Stink

OS Map Skills:  
4 and 6 figure grid references, identifying features, using a key, direction, contour  
lines/relief

Water in three major world religions: Christianity (Lourdes), Hinduism (Pilgrimage to  
the Ganges)

Ethics - Pollution of the Ganges
